

Thank you all very much for the wonderful service and support your team provided for my daughter's wedding last Saturday. The "captain" and her daughter were excellent (sorry I cannot remember their names!!).

They were always in the right spot at the right time and were incredibly responsive to our requests. They also helped us carry out all of the many flowers, food, champagne, etc. This was an unexpected treat at that time of night!

Candy, the room was elegant. The draping of the bridal table was exceptional and the linens lit up the room. The natural chairs were the right decision.

Chef Jack, you were so right! People have been raving about the food and how tasteful and elegantly displayed it was. You said people remember the food and you are so right.

A few comments from our guests--"This is the most elegant wedding we have ever attended". "The food was outstanding and something we never expected at a wedding". "I have to now rethink my wedding plans after seeing this one".

Thank you for making our event so memorable!

Sally L.
